## 2 HOW THE RESOLUTION CAPITAL CORE PLUS PROPERTY SECURITIES FUND - SERIES II WORKS

<b>WHAT DO YOU INVEST IN?</b>	The Fund is a registered managed investment scheme. When you invest in the Fund, your money will be pooled with that of other investors and you will be issued 'units'. Each unit held in the Fund gives the unitholder a beneficial interest in the Fund as a whole, but not in any particular asset of the Fund. Holding units in the Fund does not give a unitholder the right to participate in the management or operation of the Fund. Each unit in the Fund offered or issued under this PDS is of equal value and identical rights (as between units of the same class) are attached to all such units. We are required by the Corporations Act to treat all unitholders within a class of units equally and unitholders in different classes fairly. We will keep a record of the number of units you have bought.
<b>MINIMUM INITIAL INVESTMENT</b>	You can make an investment in the Fund with a minimum initial investment amount of \$25,000 or as agreed with the Responsible Entity. When you make an investment in the Fund, your units will be allocated to you based on the entry price for the Business Day your application is processed. The minimum initial investment amount does not apply to investments made through an IDPS.
<b>ADDITIONAL INVESTMENTS</b>	You are able to increase your investment at any time by buying additional units subject to the minimum additional investment amount of \$5,000, or as agreed with the Responsible Entity. The minimum additional investment amount does not apply to investors through an IDPS.
<b>WITHDRAWALS</b>	<p>You can decrease your investment at any time by withdrawing your units in the Fund. When you withdraw, your units will be redeemed based on the exit price for the Business Day on which your withdrawal request is processed. Direct withdrawal requests can be made daily, and must be received by the Fund Administrator, Citi, prior to 12:00pm (Sydney time) on a Business Day. Withdrawal requests received after that time, or on a non-Business Day, will be treated as being received on the next Business Day. Electronic transfer of the redemption proceeds can take up to 7 Business Days, however it will often be completed in a shorter period of time.</p> <p>There is a minimum withdrawal amount of \$5,000. If your withdrawal request would result in your investment balance being less than \$25,000, we may treat your withdrawal request as being for your entire investment. We will provide investors with advance notice of any compulsory redemption. The minimum balance does not apply to investments through an IDPS.</p>
<b>ACCESS TO FUNDS</b>	Extreme market conditions can cause difficulties or delays to the Fund being able to sell its assets or require it to freeze withdrawals. These circumstances could result in it taking a period of time before you are able to withdraw your investment, or it taking longer than usual for you to receive your withdrawal proceeds. We will not satisfy a withdrawal request if the Fund becomes illiquid (as defined under the Corporations Act 2001 ('Corporations Act')). In certain circumstances we may suspend withdrawals.
<b>UNIT PRICE</b>	<p>A unit price is calculated for every Business Day which is equal to the value of the Fund's net assets attributable to the units divided by the number of units. Generally, the unit price changes daily as the market value of the Fund's assets rises or falls. The entry price is calculated by taking the net asset value of the Fund and adding to it an amount which reflects the estimated cost of acquiring the Fund's assets (subject to the Responsible Entity's discretion to reduce or waive such costs) and dividing the net figure by the number of units on issue in the Fund.</p> <p>The exit price of the Fund is calculated by taking the net asset value of the Fund and subtracting from it an amount which reflects the estimated cost of selling the Fund's assets (subject to the Responsible Entity's discretion to reduce or waive such costs) and dividing the net figure by the number of units on issue in the Fund.</p> <p>Current unit prices for the Fund are available on <a href="http://www.rescap.com/coreplusfund/seriesII">www.rescap.com/coreplusfund/seriesII</a> or by contacting Pinnacle on 1300 010 311 or <a href="mailto:service@pinnacleinvestment.com">service@pinnacleinvestment.com</a>.</p>
<b>NAV</b>	<p>The Net Asset Value or 'NAV' of the Fund is calculated by deducting the value of the fees, charges, expenses and other liabilities from the value of the gross assets of the Fund.</p> <p>Current NAV per unit of the Fund is available on <a href="http://www.rescap.com/coreplusfund/seriesII">www.rescap.com/coreplusfund/seriesII</a> or by contacting Pinnacle on 1300 010 311 or <a href="mailto:service@pinnacleinvestment.com">service@pinnacleinvestment.com</a>.</p>
<b>UNIT PRICING POLICY</b>	The Responsible Entity complies with ASIC Class Order 13/655 as it relates to unit pricing requirements and has adopted a compliant policy for unit pricing discretions it uses in relation to the Fund ('Unit Pricing Policy'). Additional documents may be prepared for this purpose from time to time.
<b>DISTRIBUTIONS</b>	Income from the Fund is generally paid to you quarterly, calculated as at 30 September, 31 December, 31 March, and 30 June, subject to the Fund having sufficient distributable income. Income per unit is calculated by dividing the distributable income of the Fund by the number of units in the Fund at the end of each distribution period. The amount of income you receive is based on the number of units you hold at the end of the distribution period. Distributions are automatically reinvested, unless instructed otherwise in the Application Form.
<b>INDIRECT INVESTORS</b>	Investors and prospective investors may also access the Fund indirectly. This PDS has been authorised for use by operators through an Investor Directed Portfolio Service ('IDPS') or master trust. An IDPS is an investment and reporting service offered by an operator. People who invest through an IDPS, master trust or wrap account are indirect investors. Such indirect investors do not acquire the rights of a unitholder of the Fund. Rather, it is the operator or custodian of the IDPS or master trust that acquires those rights. Therefore, indirect investors do not receive income distributions or reports directly from us, do not have the right to attend meetings of unitholders and do not have cooling off rights. Different investment, balance and withdrawal minimums may also apply. Indirect investors should not complete the Fund's application form. The rights of indirect investors are set out in the disclosure document for the IDPS or master trust. If you are investing through an IDPS or a master trust, enquiries should be made directly to the IDPS operator or the trustee of the master trust.

## 3 BENEFITS OF INVESTING IN THE RESOLUTION CAPITAL CORE PLUS PROPERTY SECURITIES FUND - SERIES II

### Significant features

The Fund invests primarily in Australian REITs ('AREITs') and real estate securities listed on the Australian Securities Exchange ('ASX'), but also seeks to enhance returns by having the ability to invest up to 20% of the Fund in REITs and real estate securities listed on global exchanges. The Fund may also hold some cash. The Fund aims to provide income and some capital growth over the medium to long-term. Further details of the Fund are set out later in this PDS at Section 5 - 'How We Invest Your Money'.

### Significant benefits

Investing in the Fund offers a number of benefits, including:

- Specialised management and proprietary research - the opportunity to benefit from the significant expertise and experience of a specialist REIT and real estate securities investment manager and access to Resolution Capital's proprietary global research and database systems;
- Access to real estate returns - by investing in listed entities, the Fund gives investors exposure to real estate assets they may not usually access directly as individuals. The Fund offers the opportunity to gain exposure to some of the best real estate assets and management teams in the world;
- Diversification - by investing in a portfolio of global real estate securities, investors can benefit from improved diversification, divisibility and transparency compared with other forms of real estate investments;
- Alignment of interests - key executives of Resolution Capital are majority owners of the business which provides stability and focus to the investment team;
- Liquidity and transaction costs - listed real estate generally offers investors the ability to liquidate their investments more quickly than many forms of direct real estate investments. Listed real estate also involves substantially less transaction costs than direct real estate; and
- Income distributions - the potential to receive income distributions which are generally paid following the end of each quarterly period and, unless otherwise instructed, reinvested for additional units in the Fund.

## 4 RISKS OF MANAGED INVESTMENT SCHEMES

**All investments carry risk.** All managed investment schemes carry different types of risk which can have varying impacts on returns. Due to uncertainty in all investments, there can be no assurance that the Fund will achieve its investment objectives. The value of your units at any point in time may be worth less than your original investment even after taking into account the reinvestment of Fund dividends and distributions. Future returns may differ from past returns. Returns are not guaranteed, and you may lose some of your money. You need to consider the level of risk that you are comfortable with, taking into account factors such as your objectives, financial situation and needs.

The significant risks for the Fund are:

- Counterparty risk - there is a risk with external counterparty and service provider arrangements that the party to a contract defaults on, or fails to perform, its contractual obligations;
- Currency risk - investing in assets denominated in or primarily exposed to a currency other than the Fund's base currency may cause losses resulting from exchange rate fluctuations;
- Equity security risk - the Fund primarily invests in equity securities issued by listed companies. The share price of a security can rise and fall as a consequence of many factors including, but not limited to, economic conditions, adverse investor sentiment, management performance, financial leverage, regulatory changes or factors that affect the company's industry;
- Foreign investment risk - the Fund may invest in a range of international securities or foreign investment vehicles, and in companies that have exposure to a range of international economies and regulatory environments, which may impact the Fund's international investments;
- Income risk - the Fund's ability to distribute income is determined by the performance of the Fund and general market conditions. Consequently, there is no guarantee that you will receive any income;
- Investment strategy risk - the success of the Fund depends upon the investment manager's ability to develop and implement investment processes and identify investment opportunities that achieve the investment objectives of the Fund;
- Investment structure risk - there are risks associated with investing in the Fund, such as risks of the Fund's termination, changes to investment strategy or structure, changes to fees or expenses, or changes to the Fund's operating rules (such as payments or reinvestments of distributions, or additional investments);
- Liquidity risk - whilst the Fund is generally exposed to listed real estate and infrastructure securities which are generally considered liquid investments, under extreme market conditions there is a risk that investments cannot be readily converted into cash or at an appropriate price;
- Market risk - changes in the market can lead to changes in prices and overall market volatility;
- Regulatory risk - the risk that the Fund may be adversely affected by changes in government policies, regulations and laws including laws affecting registered managed investment schemes and the income profile of the Fund's investments; and
- Withdrawal risk - if we determine that this is in the best interests of all unitholders, we may suspend or delay withdrawals and these payments make take longer than the typical timeframe.

You need to consider the level of risk that you are comfortable with, taking into account factors such as your age, your investment timeframe, other assets and investments you have and your overall tolerance for risk.

## 5 HOW WE INVEST YOUR MONEY

**WARNING: When it comes to choosing to invest in the Fund, you should consider the likely investment return, the risk and your investment timeframe.**

The Fund primarily invests in Australian listed REITs ('AREITs') and real estate securities but also has the ability to invest up to 20% of the portfolio in similar securities listed on global exchanges. The AREIT component is focused on identifying relative value opportunities within the Australian universe. The flexibility to allocate to global listed REITs and real estate securities provides a means of diversification and enhancement of returns. The global component draws from Resolution Capital's highest conviction ideas from the team of experienced global portfolio managers. Australian and global stocks are evaluated on a consistent basis with our decision to invest based on our assessment of relative risk and return.

The Fund invests in REITs and real estate securities that derive most of their returns from rental income. The Fund's investments provide exposure to a range of underlying real estate including office buildings, shopping centres, industrial warehouses, residential communities, hotels and healthcare facilities. The Fund may also have exposure to companies which undertake activities such as real estate development, real estate construction contracting and real estate funds management activities.

An investment in the Fund may suit you if you are seeking a medium to long-term investment in Australian and global REITs, and other real estate securities with the potential for income distributions and capital growth. You should consider the likely investment return, risk and your investment timeframe when choosing to invest in the Fund.

Resolution Capital intends to mitigate currency risk through hedging the capital component of the Fund's exposure to global real estate securities, and may also hedge currency exposure arising from income receivable from global real estate securities at its discretion. From time to time the Fund may accept unhedged or over-hedged exposures, but hedging will not be undertaken in a currency where there is no underlying physical investment. Currency hedging may impact the level of income distributions.

## Resolution Capital Core Plus Property Securities Fund - Series II

<b>INVESTMENT RETURN OBJECTIVE<sup>1</sup></b>	The Fund aims to achieve an annual total return that exceeds the total return of the Benchmark after fees on a rolling 3 year basis.
<b>BENCHMARK</b>	S&P/ASX300 AREIT Total Return Index.
<b>BASE CURRENCY</b>	Australian dollars.
<b>SUGGESTED MINIMUM INVESTMENT PERIOD</b>	Medium to long-term, being 5 or more years.
<b>RISK LEVEL</b>	Medium to high. For investors who are prepared to take more risk in exchange for potentially higher returns on their investments over the longer term. Investors should be comfortable with volatility and with the possibility of negative returns.
<b>PORTFOLIO ALLOCATION<sup>2</sup></b>	65% - 100% invested in ASX listed real estate securities. 0% - 20% invested in global listed REITs and real estate securities <sup>3</sup> 0% - 15% invested in cash and short dated money market securities. For reasons of investment efficiency, the Fund may gain its exposure by holding units in other managed investment schemes managed by Resolution Capital.
<b>CURRENCY EXPOSURE</b>	The Fund's exposure to movements in the exchange rate between Australia and other currencies in which global real estate securities investments are denominated is mitigated using forward foreign exchange contracts. The Fund may also hold foreign currency balances for the purposes of settling trades in foreign markets.
<b>LABOUR STANDARDS OR ENVIRONMENTAL, SOCIAL OR ETHICAL CONSIDERATIONS</b>	Resolution Capital has a policy that covers environmental, social and governance issues and incorporates these considerations into its investment process. There is no predetermined view of the extent to which the considerations the investment manager may become aware of are incorporated, except where they may financially affect the investment. There is no specific consideration of labour standards in the investment process.

<sup>1</sup> The investment objective is expressed after the deduction of management fees, expense recoveries and taxation, i.e. the investment objective is measured relative to the Fund's benchmark, after fees and costs and taxes are deducted from the Fund's performance. Refer to Sections 6 and 7 for further information on fees and costs and taxation. The investment objective is not intended to be a forecast, it is only an indication of what the investment strategy aims to achieve over the medium to long term, assuming financial markets remain relatively stable during that time. The Fund may not achieve its investment objective and returns are not guaranteed.

<sup>2</sup> The above ranges are indicative only. The Fund will be rebalanced within a reasonable period of time should the exposure move outside of the above ranges.

<sup>3</sup> The Fund may also hold foreign exchange contracts for hedging purposes and these contracts represent a negligible percentage of the Fund's portfolio.

We have the right to change the Fund's portfolio allocation and investment return objective (including the Benchmark) without prior notice. We will inform investors of any material change to the Fund's details as required by law.

You should read the important information about 'How We Invest Your Money' before making a decision. ## 6 FEES AND COSTS

### DID YOU KNOW?

SMALL DIFFERENCES IN BOTH INVESTMENT PERFORMANCE AND FEES AND COSTS CAN HAVE A SUBSTANTIAL IMPACT ON YOUR LONG TERM RETURNS.

FOR EXAMPLE, TOTAL ANNUAL FEES AND COSTS OF 2% OF YOUR FUND BALANCE RATHER THAN 1% COULD REDUCE YOUR FINAL RETURN BY UP TO 20% OVER A 30 YEAR PERIOD (FOR EXAMPLE, REDUCE IT FROM \$100,000 TO \$80,000).

YOU SHOULD CONSIDER WHETHER FEATURES SUCH AS SUPERIOR INVESTMENT PERFORMANCE OR THE PROVISION OF BETTER MEMBER SERVICES JUSTIFY HIGHER FEES AND COSTS.

YOU MAY BE ABLE TO NEGOTIATE TO PAY LOWER FEES AND MANAGEMENT COSTS WHERE APPLICABLE. ASK THE FUND OR YOUR FINANCIAL ADVISER.

### TO FIND OUT MORE

IF YOU WOULD LIKE TO FIND OUT MORE, OR SEE THE IMPACT OF THE FEES BASED ON YOUR OWN CIRCUMSTANCES, THE AUSTRALIAN SECURITIES AND INVESTMENTS COMMISSION (ASIC) MONEYSMART WEBSITE ([WWW.MONEYSMART.GOV.AU](http://WWW.MONEYSMART.GOV.AU)) HAS A MANAGED FUNDS FEE CALCULATOR WHICH CAN BE USED TO CALCULATE THE EFFECT OF FEES AND COSTS ON ACCOUNT BALANCES.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. These fees and costs may be deducted from your account, from the returns on your investment or from the Fund assets as a whole. Taxes are set out in Section 7 of this PDS. You should read all the information about fees and costs because it is important to understand their impact on your investment.

**WARNING: Additional fees and costs may be paid to a financial adviser if a financial adviser is consulted. The details of these fees and costs should be set out in the statement of advice by your adviser.**

### Example of annual fees and costs for the Fund

The following table gives an example of how the fees and costs applicable to the units in the Fund can affect your investment over a one (1) year period. You should use this table to compare the Fund with other managed investment products.

Example	Balance of \$50,000 with a contribution of \$5,000 during the year	
Contribution Fee	Nil	For every additional \$5,000 you put in, you will be charged \$0.
<b>PLUS</b> Management fees and costs	0.80% p.a.	<b>And</b> , for every \$50,000 you have in the Fund you will be charged or have deducted from your investment \$400 <sup>1</sup>
<b>PLUS</b> Performance fees	0.00% p.a.	<b>And</b> , you will be charged or have deducted from your investment \$0 in performance fees each year.
<b>PLUS</b> Transaction costs	Nil	<b>And</b> , you will be charged or have deducted from your investment \$0 in transaction costs.
<b>EQUALS</b> Cost of Fund	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during the year, you would be charged fees of \$400. <sup>1</sup>	
<b>What it costs you will depend on the investment option you choose and the fees you negotiate.</b>		

<sup>1</sup> The example assumes the \$5,000 contribution occurs at the end of the year and therefore management costs are calculated using the \$50,000 balance only. Additional fees may apply, including a buy/sell spread.

Please note that this is just an example. In practice, your investment balance will vary, as will related management costs. Fee rebates may be individually negotiated with wholesale clients (as defined in the Corporations Act). Go to 'Additional Information to the PDS' located at [www.rescap.com/coreplusfund/seriesII](http://www.rescap.com/coreplusfund/seriesII) for further information about negotiable fees.

We have the right to increase the fees or to charge fees not currently levied up to the maximum limits set out in the Fund constitution without your consent. If we choose to exercise this right, we will provide you with 30 days prior written notice.

You should read the important information about 'Additional Information on Fees and Costs' before making a decision. Go to the 'Additional Information to the PDS' available at [www.rescap.com/coreplusfund/seriesII](http://www.rescap.com/coreplusfund/seriesII). The material relating to 'Additional Information on Fees and Costs' may change between the time when you read this PDS and the day when you sign the application form.

## 7 HOW MANAGED INVESTMENT SCHEMES ARE TAXED

**WARNING: Investing in a registered managed investment scheme is likely to have tax consequences. You are strongly advised to seek professional tax advice.**

The taxation implications of investing in the Fund can be complex and depend on a number of factors, including whether you are a resident or non-resident of Australia for taxation purposes and whether you hold the units on capital account or revenue account.

Investors are generally subject to tax on their share of taxable income and capital gains attributed to them by the Fund each year.

You should read the important information about 'How Managed Investment Schemes are Taxed' before making a decision. Go to the 'Additional Information to the PDS' available at [www.rescap.com/coreplusfund/seriesII](http://www.rescap.com/coreplusfund/seriesII). The material relating to 'How Managed Investment Schemes are Taxed' may change between the time when you read this PDS and the day when you sign the application form.

The 14-day cooling-off period commences on the earlier of the end of the fifth Business Day after we issue the units to you or from the date you receive confirmation of your application.

If you exercise your cooling-off rights, we will return your money to you and no fees will apply. However, the repayment of your investment under the cooling-off rights is subject to market adjustment (either positive or negative) during the period in which the investment has been held. Where appropriate, administration costs may also be deducted, and the buy/sell spread will be applied. Therefore, there may be tax implications for you. Cooling-off rights do not apply to:

- Wholesale clients (as defined in the Corporations Act)
- The operator of an IDPS or trustee of a master trust. Indirect investors do not have cooling off rights in respect of any units held in the

Fund. Speak with the IDPS operator or trustee of a master trust to determine whether any cooling off rights are available to you through the service.

- Units which have been issued as a result of an additional investment, switch or distribution reinvestment plan.
